

KOLLI ACHYUTH HARANADH

Full Stack Developer | WordPress & PHP Specialist | Cloud & Hosting Management
achyuthharanadhkolli@gmail.com | +91 63044 74930 | Hyderabad, TS | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 9 months of hands-on experience at a fast-paced startup, independently delivering 10+ end-to-end web projects. Proficient in WordPress, Elementor Pro, ACF Pro, WooCommerce, and custom PHP development for static and dynamic web solutions. Experienced in building custom themes, reusable templates, eCommerce functionality, and dynamic content management systems. Skilled in full project deployment — Hostinger hosting, domain/DNS/SSL management, and LocalWP-to-production migrations. Experienced in Microsoft 365 administration, ERP system management, branding, SEO optimization, and website performance tuning. Proven ability to own the complete project lifecycle from requirements to post-launch support in a startup environment.

WORK EXPERIENCE

Full Stack Developer | **SMANV Info Tech** Hyderabad, TS | Oct 2025 – Jun 2026

Joined SMANV Info Tech as a Full Stack Developer in a startup environment, taking end-to-end ownership of web development and IT infrastructure projects. Worked across the full stack — from designing and building dynamic WordPress-based web solutions to managing hosting, servers, and internal systems. Gained broad hands-on experience in WordPress development, Microsoft 365 administration, ERP management, VPS server administration, and branding, independently driving 10+ projects from requirement gathering through to production deployment.

- Developed and maintained 10+ dynamic WordPress projects using PHP, Elementor Pro, ACF Pro, and WooCommerce, covering full lifecycle from development to production deployment.
- Designed responsive UI/UX for 10+ projects by converting static designs into fully dynamic, mobile-friendly websites with cross-browser compatibility across Chrome, Firefox, and Safari.
- Built custom WordPress themes, reusable page templates, and dynamic content management systems using ACF Pro custom fields and Custom Post Types, reducing content update time by 40%.
- Developed eCommerce functionality including product management, variable products, custom product pages, and inquiry forms using WooCommerce, supporting end-to-end online selling workflows.
- Managed complete project deployment pipeline — web hosting on Hostinger, domain configuration, DNS management, SSL installation, and LocalWP-to-production migrations for 15+ projects.
- Administered Microsoft 365 environment including business email setup, user management, Exchange Online, Outlook, Teams, and SharePoint for a 15+ member organization with zero downtime.
- Created company branding assets including logos and website visual identity, ensuring consistent brand alignment across digital touchpoints for multiple projects.
- Implemented on-page SEO, performance optimization, and cross-browser compatibility across 8+ projects using Google Search Console and Google Analytics, improving page load speed by 35%.
- Provided ongoing website maintenance, debugging, feature enhancements, and technical support — reducing recurring issues by 50% through proactive monitoring and code improvements.
- Collaborated with management to gather technical requirements and deliver end-to-end digital solutions independently, demonstrating full ownership at startup scale.

TECHNICAL SKILLS

Web Development

- WordPress, Elementor Pro, Advanced Custom Fields (ACF) Pro, WooCommerce, Custom Post Types, Custom Themes & Plugins
- PHP, HTML5, CSS3, JavaScript (ES6+), MySQL, REST API integration
- React.js (basics), Node.js, MongoDB, Git, GitHub

Hosting & Infrastructure

- Hosting: Hostinger, cPanel, WHM, domain/DNS/SSL configuration, LocalWP-to-production migrations

- VPS Administration: Linux (Ubuntu/CentOS), SSH, Apache/Nginx, server hardening, firewall configuration
- Microsoft 365: Azure AD, Exchange Online, Outlook, SharePoint, Teams, business email setup
- AWS Cloud basics (AI/ML services training)

Tools & Others

- ERP system management & customization (procurement, HR, inventory modules)
- Git, GitHub, VS Code, LocalWP, Postman, Figma (basic)
- Google Analytics, Google Search Console, on-page SEO, website performance optimization
- Branding & UI/UX: logo design, visual identity, responsive design, cross-browser compatibility
- Languages: English, Hindi, Telugu

PROJECTS

Natural Disaster & Crisis Monitoring System

- Real-time monitoring dashboard using NASA satellite data with automated alert triggers and geospatial visualization.

Wool Track – IoT-Based Wool Quality Assessment System

- Developed a smart IoT system integrating hardware sensors with a web dashboard to assess and grade wool quality in real time.

Student Dropout Analysis – Gujarat Government

- Collaborated with the Gujarat state government to analyze school dropout patterns using ML classification models; produced actionable insights for policy decisions.

BIT (Be In Touch) – College & University Navigator

- Built a web platform enabling students and parents to discover, compare, and explore educational institutions across India.

Online Hotel Management System

- Developed a hotel booking and management system using HTML, CSS, PHP, and MySQL during web development internship at CODE BLIND Technologies.

EDUCATION

Saveetha School of Engineering 2021 – 2025

B.E. Computer Science & Engineering | Chennai, TN

CGPA: 8.62 / 10

Sri Chaitanya Junior College *Jul 2019 – May 2021*

BIEAP – MPC (Math, Physics, Chemistry) | Narasaraopet, AP

Score: 839 / 1000

Sindhu High School *May 2019*

SSC – BSEAP | Narasaraopet, AP

Percentage: 88%

CERTIFICATIONS

- Oracle Certified – Artificial Intelligence Foundations
- AWS Training – Artificial Intelligence & Machine Learning
- NPTEL – Machine Learning (IIT/IISc)
- Udemy – Python Programming
- Front End Development – HTML (freeCodeCamp / equivalent)
- Cambridge Linguaskill – English Proficiency Certification

ACTIVITIES & INITIATIVES

- Contributed to Unnat Bharat Abhiyan — conducted rural community outreach programs focused on digital literacy.
- Participated in corporate seminars and executive programs at companies and engineering colleges.
